

# Curriculum overview: Art and design

## Key Stage 2

Pupils should be taught to develop their techniques, including their control and their use of materials, with creativity, experimentation and an increasing awareness of different kinds of art, craft and design.

Pupils should be taught:

- to create sketch books to record their observations and use them to review and revisit ideas.
- to improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials [for example, pencil, charcoal, paint, clay].
- about great artists, architects and designers in history.

## Key skills/content requirements at GCSE

- Develop ideas through investigations, demonstrating critical understanding of sources.
- Refine work by exploring ideas, selecting and experimenting with appropriate media, materials, techniques and processes.
- Record ideas, observations and insights relevant to intentions as work progresses.
- Present a personal and meaningful response that realises intentions and demonstrates understanding of visual language.

## GCSE External assessment:

### Personal portfolio (60% of the qualification):

This is produced through undertaking assignments based on open ended themes and concepts. Students explore a wide variety of artistic materials, techniques and processes as well as investigating traditional and contemporary art, artists and designers. The current thematic projects are: Surfaces, Structures and Force.

### Externally set assignment (40% of the qualification):

Students are provided with a thematic starting point set by EDEXCEL. They prepare and develop a response, executing a final outcome in a ten hour controlled test.

## SMSC in art

The study of art lends itself to a wide range of Spiritual, Moral, Cultural and Social studies. Students will analyse, engage with and question their own and others work, identify how beliefs, values and meanings are expressed and shared. Students are encouraged to express themselves through their art and design, which is supported by strong research into the wider world

around them. This is reinforced by trips and outings to museums, galleries and field studies that are linked to projects. The subject area undertakes a number of extra-curricular activities that enhance the students' experience of the visual arts.

### **Spiritual development in art**

Art and design is dependent on the students' ability to enquire and communicate their ideas, meanings and feelings. Students will investigate visual, tactile and other sensory qualities of their own and others work. We encourage independent thinking that will enable students to develop their ideas and intentions and express these in an appropriate manner.

### **Moral development in art**

Throughout the courses students are encouraged to look at work that will often pose a moral question. The student's outcomes are supported with a rationale or a meaning that will often convey a message.

### **Social development in art**

Students work is celebrated in the school and exhibited at the end of KS4/5 courses. Pupils have worked independently and collaboratively to develop public and community artworks that express relationships between the students and local community. Student discussion of a range of artists and art work, encouraging and developing communication skills.

### **Cultural development in art**

Throughout the units of work explored students will develop their knowledge and understanding of artist's ideas and concepts identifying how meanings are conveyed. Students will be exposed to a wide variety of cultures, beliefs and religions. Through their investigations they will research and explore the religious and non-religious beliefs adopted by a variety of cultures from around the world.
