

King Charles I School

Key Stage 4 & 5 Examinations, Coursework and Non-Examination
Assessment

2021-2022

Information for Parents/Carers and Students

Dear Parents/Carers,

Examinations, non-examination assessment and coursework are integral parts of the learning experiences at GCSE and A-Level. They feature in particular subject specifications across all examination boards. Details of each subject's requirements are available on our website. This document provides all the necessary information on the rules and guidelines associated with these types of assessments.

It is important that students keep to deadlines for the submission of coursework and non-examination assessment. To assist the planning of their work, the dates are made known to students. The dates can also be found in this booklet along with the percentage of the final grade the coursework, or non-examination assessment forms and whether the piece of work demands high control, medium control or low control or a combination of these. Please note that all the dates at this stage are approximate. The subject teachers will inform the students of the specific deadlines before they start the non-examination assessment or coursework. Students should record these dates in their planners.

This document also contains information about the JCQ regulations. It is vital your son/daughter are aware of all of the rules and regulations before completing any non-examination assessment, coursework or sitting any written examination.

If you have concerns over the process in which any of the non-examination assessment or coursework have been delivered please access our website and go to the 'Examinations Internal Appeals Procedure'.

Please note that relevant personal data (name, date of birth, gender) will be transferred to the awarding bodies for the purpose of examining and awarding qualifications, and that such personal data, together with the examination results and outcomes of any reviews of marking, reviews of moderation and appeals may be shared with other appropriate bodies.

Due to the pandemic, the exam boards have made a number of confirmed alterations this year. Some changes have been proposed and are still in consultation, you can find details of these confirmed and proposed changes on page 9. Further changes may be made to the dates and levels of control listed in this document, if and when these changes are made we will make you aware as soon as possible.

If you have any questions or concerns, please do not hesitate to contact me at the school.

Yours sincerely,

Marti-Kiran Elliott
Assistant headteacher

Coursework – A summary for parents/carers and students

What is Coursework?

Coursework is any piece of written or practical work which is marked by the school or an external examiner and which contributes to an accredited 14-19 course. Coursework components of the qualifications are set out in the specific examination board specification for the subject.

The student completes coursework over an extended period of time. Coursework components assess candidates' skills, knowledge and understanding that may not readily be assessed by timed written papers.

How will coursework be delivered?

1. Subject staff will ensure that students are clear about the assessment criteria which they are expected to meet in their coursework. Specifications usually explain the criteria in detail, but candidates may require some further explanation or interpretation before they fully understand the nature of the skills which they are expected to demonstrate.
2. For each subject, all students will be given the same and sufficient time to complete the work.
3. Students will be given clear instructions as to the time and place for handing in the work.
4. The work must be handed in by the student to the designated teacher and not given to another student in school to hand in.
5. All coursework submitted for assessment **must** be the candidate's own work. Written material may be handwritten using black ink or where possible, word-processed. (Computers may be used unless stated otherwise in the examination board specification.)
6. Parents/carers should encourage their son/daughter to spend time on their coursework and to think about it as early as possible. They should discuss with their son/daughter the planning and timing of the work. Parents/carers may provide their children with access to resource materials and discuss the coursework with their children, but they must **not** give direct advice on what should or should not be included.
7. If the coursework has not been completed by the final deadline date, the incomplete work must be handed in on the final deadline day to receive a mark. If this is not done then the latest piece of work collected in will be marked instead. There will be no further opportunity to complete this work for an improved mark unless this has been agreed by the head of department.
8. Normally there will be no extension of a coursework deadline if a student is absent for a day or two during the period that the coursework is being completed. If the student is absent from school on the interim or final deadline day, the work should be given to the designated teacher on the first day back at school.
9. If a student is absent for an extended period then an individual final deadline may need to be negotiated with a member of the teaching staff and/or the head of department. In such circumstances, appropriate evidence (for example a medical note) will be required.

Authentication of coursework

Candidates must not:

- submit work which is not their own;
- lend work to other candidates or allow their work to be copied;

- allow other candidates access to, or the use of, their own independently sourced material or assist others in the production of coursework; (this does not mean that candidates may not lend their books to one another, but candidates must not plagiarise others' research);
- use any books, the internet or other sources without acknowledgement or attribution;
- submit work word-processed by a third person without acknowledgement.
- under no circumstances during any part of the course, share their work on social media or other internet platforms.

These actions constitute malpractice, for which a penalty (e.g. disqualification from the assessment) will be applied.

Where will coursework take place?

Coursework is designed to extend students' class work and therefore, most coursework will be completed at home or in school outside of lesson times.

What is the Coursework process?

- All coursework is subject to 'Levels of Control', ranging from high (most controlled) to low (least controlled) to ensure reliability and authenticity and to make assessments more manageable for teachers and students. Coursework subject to 'High' level of control work must be completed in school under supervision. If ICT is used then it is subject to the stipulations set out below. 'Medium' Level of control work must be completed in school, under supervision, but collaborative working is allowed. 'Low' level of control work may be completed outside of the classroom or at home. Neither 'Medium' or 'Low' level of control work is subject to the ICT stipulations set out below.
- Individual subject specifications give specific details about which tasks are high, medium and low control. Your son/daughter's teachers will inform them which tasks are to be completed in high, medium or low control conditions.

Use of ICT and security of students' work ('High' Level of control)

- If ICT use is permitted for 'High' level of control coursework, students are not permitted to access their work between coursework sessions.
- All students will be issued with a separate computer login and password to use during 'High' level of control coursework sessions.
- Students are **not allowed** to save work on USB devices to bring home. USB ports and the internet can be 'switched off' during coursework ICT sessions.
- Breaches of these measures can be interpreted as malpractice and the students have been informed of the possible consequences.

What does formal supervision (high level of control) mean?

- Students must be in direct sight of the supervisor at all times.
- Use of mobile phones, MP3 and other electronic devices is strictly prohibited and all breaches will be noted and reported to the exams office.
- The use of resources is tightly prescribed, normally only research folders/diaries.
- Students must complete all work independently but those students who work with learning support, following an assessment, can be assisted; this is noted and declared to the examination boards.
- Students are not permitted to communicate with each other. The assessment is carried out under examination conditions.
- No assistance can be given to students.

What does informal supervision (medium level of control) mean?

- Students do not have to be directly supervised at all times but there must be adequate supervision to ensure that work can be authenticated.
- Use of mobile phones, MP3 and other electronic devices is strictly prohibited and all breaches must be noted and reported to the exams office.
- Teachers must ensure that:
 - the students' work is their own
 - plagiarism does not take place
 - the contributions of individual students are recorded accurately.
- Students have access to resources.
- Students can work together.
- Students can receive limited teacher guidance.

What does limited supervision (low level of control) mean?

- Student work may be completed without supervision, outside the classroom.
- Students will be given guidance on how to complete low control tasks.
- Students have access to resources such as books and files during low control tasks.
- Students can work together to collect information but how they use this information in their work must be on an individual basis.
- Students can receive guidance from teachers during low control tasks.

Non-Examination Assessment – A summary for parents/carers and students

What are non-examined assessments?

Non-examination assessment is a form of internal assessment for reformed GCSE and GCE qualifications where it is the only valid means of assessing essential knowledge and skills that cannot be tested by timed written papers.

How will non-examined assessments be delivered?

1. For each subject, all students will be given the same and sufficient time to complete the work.
2. Students will be given clear instructions as to the time and place for handing in the work.
3. The work must be handed in by the student to the designated teacher and not given to another student in school to hand in.
4. Students will be given the marking criteria in advance so they are aware of what guidelines are being used to assess their work.
5. All work submitted for assessment **must** be the candidate's own work. Written material may be handwritten using black ink or where possible, word-processed. (Computers may be used unless stated otherwise in the examination board specification.)
6. If the work has not been completed by the final deadline date, the incomplete work must be handed in on the final deadline day to receive a mark. If this is not done then the latest piece of work collected in will be marked instead. There will be no further opportunity to complete this work for an improved mark unless this has been agreed by the head of department.
7. Normally there will be no extension of a coursework deadline if a student is absent for a day or two during the period that the coursework is being completed. If the student is absent from school on the interim or final deadline day, the work should be given to the designated teacher on the first day back at school.
8. If a student is absent for an extended period then an individual final deadline may need to be negotiated with a member of the head of department. In such circumstances, appropriate evidence (for example a medical note) will be required.

Authentication of non-examined assessments

Candidates must not:

- submit work which is not their own;
- lend work to other candidates or allow their work to be copied;
- allow other candidates access to, or the use of, their own independently sourced material or assist others in the production of coursework; (this does not mean that candidates may not lend their books to one another, but candidates must not plagiarise others' research);
- use any books, the internet or other sources without acknowledgement or attribution;
- submit work word-processed by a third person without acknowledgement.
- under no circumstances during any part of the course, share their work on social media or other internet platforms.

These actions constitute malpractice, for which a penalty (e.g. disqualification from the assessment) will be applied.

Candidates and teachers must sign the appropriate authentication declarations and these must be kept on file until the deadline for enquiry about results has passed or until any appeal, malpractice or other results enquiry has been completed, whichever is later.

Where will non-examined assessments take place?

Non-examined assessments are designed normally to take place within the teaching timetable, for example in the classroom, lab or workshop.

What does formal supervision (high level of control) mean?

- Students must be in direct sight of the supervisor at all times.
- Use of mobile phones, MP3 and other electronic devices is strictly prohibited and all breaches will be noted and reported to the exams office.
- The use of resources is tightly prescribed, normally only research folders/diaries.
- Students must complete all work independently but those students who work with learning support, following an assessment, can be assisted; this is noted and declared to the examination boards.
- Students are not permitted to communicate with each other. The assessment is carried out under examination conditions.
- No assistance can be given to students.

What does informal supervision (medium level of control) mean?

- Students do not have to be directly supervised at all times but there must be adequate supervision to ensure that work can be authenticated.
- Use of mobile phones, MP3 and other electronic devices is strictly prohibited and all breaches must be noted and reported to the exams office.
- Teachers must ensure that:
 - the students' work is their own
 - plagiarism does not take place
 - the contributions of individual students are recorded accurately.
- Students have access to resources.
- Students can work together.
- Students can receive limited teacher guidance.

What does limited supervision (low level of control) mean?

- Student work may be completed without supervision, outside the classroom.
- Students will be given guidance on how to complete low control tasks.
- Students have access to resources such as books and files during low control tasks.
- Students can work together to collect information but how they use this information in their work must be on an individual basis.

The Common Practical Assessment Criteria (CPAC)

In GCE A-Level biology, chemistry and physics students' understanding of experimentation is assessed through twelve compulsory practical activities across the two-year course. Students will design, conduct and evaluate the results from a range of experiments.

Students receive a separate grade (pass/fail) for their practical skills based on a range of assessment criteria. The assessment criteria is shared with the students prior to the experiments.

Student understanding of the practical activities is also included in their terminal written examinations.

Changes due to Covid-19

Please find below a summary of changes to examination requirements made in response to the disruption caused by the Coronavirus pandemic. As we progress through the year, further changes may be made.

Please note, those in red are proposed changes and will be confirmed by Ofqual in due course.

GCSE subject	Change to NEA or CW
Art and design	There will be no final exam. Students will be graded using their portfolio work only.
Dance	No requirement for students to perform as part of a group.
Design and technology Product Design and Textiles	Final projects will not need to be made as mock-ups. Clear and detailed intentions of prototypes will be accepted. Manufacturing has been reduced from 20 marks to 10 marks and evaluation has had marks reduced from 20 to 15 to reflect the manufacturing. Teachers can demonstrate the use of machinery/tools/processes and students do not have to use the equipment themselves.
English language	Teachers do not need to record any spoken language from students as evidence and students can be assessed by the teacher at any time during the course and by virtual means if necessary.
Geography	Students now do not have to complete fieldwork and therefore are not be expected to answer questions in the exam relating to their own fieldwork experience.
Modern Foreign Languages	Exam boards will not have to include vocabulary that is not on the vocabulary lists for assessments in GCSE modern foreign languages
Music	Performance Assessment: There will be no requirement to perform as part of an ensemble. An unedited recording of the live performance and the score or lead sheet must be submitted. Composition Assessment: A complete recording of the free composition with a score, lead sheet or written account of the composition, produced by the student must be submitted. There is no requirement for a second composition to a brief.
Physical education	Teachers can grade and moderate via video recordings. Students' evidence for participation in a competitive sport can be submitted as a video.

GCE subjects	Changes to NEA or CW
Biology, Chemistry and Physics	Students can use observations of demonstrations and/or simulations of practical activities to cover the required apparatus and techniques.
Design and technology- Product Design	Final projects will not need to be made as mock-ups. Clear and detailed intentions of prototypes will be accepted. Clear and detailed intentions of prototypes will be accepted. Manufacturing has been reduced from 25 marks to 15 marks and evaluation has had marks reduced from 20 to 15 to reflect the manufacturing. Teachers can demonstrate the use of machinery/tools/processes and students do not have to use the equipment themselves.
Geography	Students now do not have to complete fieldwork but are still expected to answer questions in the exam relating to fieldwork using primary data provided.

Key Dates (CWK=coursework; and NEA=non-examination assessment)

Level	Subject	Exam Board	Specification Code	Target Date for Work Completion	CWK - NEA	% of Grade	Level of Control
Year 10
